

Dusk Funk

Bondax

You don't get refusal
You won't get turned down
You just get turned up
You won't now back down to the floor baby
Never out of luck From the morning
To the evening
I can feel it
I can feel it
Seems like now that I'm stuck on you
It's gonna last forever
Feels like all that I wanna do
Is never say never to you
Cause on you I'm stuck
If I only knew then
Knew it from the start
I would never use it
Just to break your heart
When I don't mind losing
Losing one last chance
I would never use it
Just to break your heart
From the morning
To the evening
I can feel it
I can feel it
Seems like now that I'm stuck on you
It's gonna last forever
Feels like all that I wanna do
Is never say never to you
Cause on you I'm stuck
