

Gotta Have It

Jay-Z

turn my headphones up
louder
uh-huh
uh-huh
what you need
what what you need
(i got)
i got what you need
ello ello ello white america
assassinate my character
money matrimony
yea they trying break the marriage up
who gone act phonier
who gone try to embarrass ya
i'ma need a day off
i think i'll call Harris up
Bueller had a Mueller but i switched it for a Miele
cause i'm richer and prior to this shit that's moving free base
had a conference with the DJ's Puerto Rico three days
parlay with them Gd's now they got that shit on replay
sorry i'm in pajamas but i just got off the pj
and last party we had they shut down Prive
ain't that where the heat play niggas ain't ballers these days
ain't that like LeBron James
ain't that just like D-Wade wait
what you need ,what ,what you need
i got
what you need, what ,what you need
t got
what you need, what ,what you need
i got
what you need
was-sup, was-sup, was-sup, was-sup, was-sup motherfucker
where my money at
you gone make me come down to your house where yo mommy at
mommy wrap the kids have them crying for they mommy back
tell me where your daddy is
tell him i just wont my racks
rack on racks on racks

made back on backs on backs on backs on backs
who in that
oh shit
its just blacks on black on black
hundred stacks
how you get it
nigga laying raps on tracks
i wish i could give you this felling
i'm blanking on a million
i'm riding through your hood
you can bet i ain't got no ceiling
made a left on Nostrad Ave.we in Bed Sty
made a right on 78 avenue
coming down South Shore Drive
i would mean Chi-TownBrooklyn till i die
take em on home, take em on home, take em on home
i got
what you need, what, what you need
i got
what you need, what, what you need
take em on home, take em on home
tryna hurt my name huh
