One Day

Ace Of Base

I?m a sinner with a broken heart
It?s not easy but we made it (in)to an art.
Joy until the morning do us apart
Without love, without names
[Chorus]One day, one day of my time
That?s what it takes for you to love me
One day, one day of my time
And again and again that melody
You?re never gonna reach that part of me, oh
One day, one day of my time.

All forgotten with the break of dawn
But our story lingers on
I?m leaving with my passion full withdrawn
With your essence already gone
[Chorus]Maybe cos I?m a gambler.
Tired of this Bodegas
Some say I?m a rambler
Searching for my Vegas (searching for my Vegas)
One day is all I need (is all I need..)
[Chorus x2]
