

# Interstellar

Omar LinX

Please come on peace  
We beseech you  
Only a landing will teach them  
Our earth may never survive  
So do come, we beg you  
Please interstellar policeman  
Oh, won't you give us a sign  
Give us a sign that we reached you They say I'm a success mama  
I just put it on the track it's a wrap  
Swear to god they obsessed mama  
Oh they amazed I am so outer space  
And these haters gonna hate  
But i wish 'em all the best mama  
Cause i'm a beast  
I'm a killer on the beat  
Why they lookin at me strange  
Someone tell em who i be  
At the least they a fan  
Let em know it's all peace  
It don't matter where i am  
I aint never gonna leave  
But shout out to young hooks  
Shout out to DC  
Shout out my city and the people that believe me  
Cause we're gone like the moon in the morn'  
And the sun shine bright when you used to the storm  
But we're off to the stars never to return again  
Neil Armstrong from the moon  
Never heard of him  
Now we don't play we could do this all day  
And we never fit in cause we do it our way Please come on peace  
We beseech you  
Only a landing will teach them  
Our earth may never survive  
So do come, we beg you  
Please interstellar policeman  
Oh, won't you give us a sign  
Give us a sign that we reached you  
I don't even try got the ship on autopilot

They can't see what i do call it ultraviolet  
Nah these chumps can't bite got em on a diet  
I think i lost my mind but i ain't tryin to find it  
Now what i say i'm just giving all a taste  
I said that i'd deliver now the shipment's on it's way  
A new place here i'm livin' out my days  
And they'll never weigh me down  
Cause i live in outer space  
But i got my shades in i'm in the lime light  
I'm here to silence all the critics this is my life  
There's no excuse  
Ain't no question i'm the proof  
Plus i'm on another planet on a mission for the truth  
With my finger on the trigger  
I hope they thinking fast  
When they got me figured  
I just flip it on their ass  
Case i'm the future i'm the present i'm the past  
I don't worry 'bout the tense cause i know i'm gonna last
