

Under The Earth

Yeah Yeah Yeahs

Down, down under the earth goes another lover
Down, down under the earth goes another lover
Down, down under the earth goes another loverTwelve times put a hex on you
Small mouths don't dare to shout out
No fun for a night out
No fun for a night out on the townTwelve times put a hex on you
Small mouths don't dare to shout it out
No fun for a night out
No fun for a night out on the townRun away, run away
(...) that you'll stay here
On your own, on your own you're not safe
Run away, run away
(...) that you'll stay here
On your own, on your own you're not safeDown, down under the earth goes another lover
Down, down under the earth goes another lover
Milk you for what you're worth and call it murder
Down, down under the earth goes another loverTwelve times put a hex on you
