Are You Ready?

Citizens!

I am ready, ready for you
The whole world fell to pieces but you stayed true
We'll surrender ourselves to the sea
Are you ready, ready for me?The moment is already here (Are you ready?)
The night has already begun (Are you ready?)
If you wait for the call you'll be lost (Are you ready?)
Are you ready, Are you ready?Our love will shine like the sun
Our love will shine like the sun
Our love will shine like the sun
Are you ready?I am ready, ready for you
When the whole world leaves the party
I'll be waiting for you
We'll surrender ourselves to the seaAnd no one would ever believe
Are you ready, ready for me?The moment is already here (Are you ready?)
The night has already begun (Are you ready?)
If you wait for the call you'll be lost (Are you ready?)
Are you ready, Are you ready?Our love will shine like the sun
Our love will shine like the sun
Our love will shine like the sun
Are you ready?The moment is already here
The night has already begun
If you wait for the call you'll be lost, lost, lost
The line has already been drawn
The moment is already here
The night has already begun Are you ready?
Are you ready?
