Leaving You

Freddy Mullins

So she walks through days as if life wasn't passing away
And she's felt like this and learned to ignor
I look into her eyes, a faded spirit she can't hide
So whats left for me to do but what I must doAnd on cue, I'm leaving you
On cue, I'm leaving youIf dark clouds give us rain and goodbyes bring us pain
Does anything in this life not end up like the knife
Cause I slide down on the blade with the choices I have made
So whats left for me to do but what I must doAnd on cue, I'm leaving you
On cue, I'm leaving you
