

# One Last Thing

## Angels & Airwaves

Chalked up in a city street  
Broke glass in bloody scene  
Young guns that are half my age  
Baghdad up to Monterrey  
Cell phones and the magazines  
Death bombs and the human beings  
Hate war and diamond rings  
Nightmares of silly things  
How does anybody sleep at night?  
Out of mind but not out of sight  
Out of love and we just begun  
Livin large in America

But I found, one last thing  
To believe in  
But I found, one last thing  
To believe in

Close calls and we're holdin on  
Police lines and fire alarms  
High winds with a heavy fall  
Dead birds in a parking stall  
How does anybody sleep at night?  
I lay in bed and I close my eyes  
I kind of rest but it starts to hurt  
Living here is a lot of work

But I found, one last thing  
To believe in  
But I found, one last thing  
To believe in  
But I found

[Transmission:]

(Why we's true to breathe in the most righteous breath)  
(A feeling of heartfelt purpose, and a sense of hope)

But I found  
One last thing  
(For something bigger than ourselves)

[Chorus: x2]

But I found, one last thing

To believe in

But I found, one last thing

To believe in

To believe in

---
