

When I Was Abroad

Daniel Romano

Things were much better back then when I was abroad
I had no trouble find in her friend when I was her bro
I'd wonder for miles and miles
And every face gave me a smile
From a grand cooly damn to the Nile when I was abroadMhmm
Well I never had trouble with love when I was abroad
Though it seem to fall from above when I was abroad
And no matter when we were engagedAnd soon enough everything changed
I was held back and kept in caged from being abroadWhen I was abroad I saw
Everything there was to see
Since I've been home with you,
Well I just don't feel like me,
My days just seem to hang low
When every day used to be stand
So I'm telling my wife that I miss my old life
And I'm working on change it back
