The Trouble With Andre

Shakespear's Sister

Some people say he has a death wish
Trouble is he tends to agree
Let's not ask too many questions
It's nothing to do with you or meHe remembers a time when even
Going home was sweet
Now he can't feel the ground under his feetAnd she said, "The trouble with Andre
Is he thinks he hides everything"
But I know the trouble with Andre
Is he's a liarInside the dresser by the table
Something he keeps beside the bed
Living with Andre can't be easy
Some things are better left unsaidHe remembers a time before
The waters got so deep
When he found it easier to sleepAnd she said, "The trouble with Andre
Is he thinks he hides everything"
But I know the trouble with Andre
Is he's a liarAnd you know the trouble with Andre
Is he thinks he fools everyone
But I know the trouble with Andre
Is his disguiseAnd she said, "The trouble with Andre"
But I know the trouble with Andre
Is he's a liarAnd I know the trouble with Andre
Is he thinks he fools everyone
But I know the trouble with Andre
Is his disguiseAnd I know the trouble with Andre
Is he thinks he hides everything
But I know the trouble with Andre
Is he's a liarAnd I knowTrouble with Andre
Is he thinks he fools everyone
But I know the trouble with Andre
Is his disguise
