

Chick Lit (Matt Helders Arctic Monkeys Remix)

We Are Scientists

I wouldn't be caught dead with your kind
And all the hot shot carrying on that you do
It's your only move I wanna see you all buried alive
And I'll be up top carrying on over you
Only for you I asked you nicely once but I won't do that again
I asked you nicely once but I won't do that again
If after all we still have high hopes and all is forgiven, if all is forgiven
I asked you nicely once but I won't do that again You know that we've got some axes to grind
We've got some sharp tongue carrying on to do
It's your only move I wanna see you all buried alive
And I'll be up top carrying on over you
Only for you I asked you nicely once but I won't do that again
I asked you nicely once but I won't do that again
If after all we still have high hopes and all is forgiven, if all is forgiven
I asked you nicely once but I won't do that again I asked you nicely once but I won't do that again
I asked you nicely once but I won't do that again
If after all we still have high hopes and all is forgiven, if all is forgiven
I asked you nicely once but I won't do that again, again
