

You Can't Stop Rock 'n' Roll

Twisted Sister

Here it comes, you're never gonna top it
On a run, and no way you can stop it
Total style, perfection in decay
Running wild, flat out all the way Now you can ride it high
And you can light the way
Lift up your hands in praise You can't stop rock 'n' roll
You can't stop rock 'n' roll
You can't stop rock 'n' roll Like a charging bull, it's a juggernaut
With steam at full, never to be caught
Incarnate power, roaring from the sky
While others cower, rock ain't gonna die Now you can ride it high
And you can light the way
Lift up your hands in praise You can't stop rock 'n' roll
You can't stop rock 'n' roll
You can't stop rock 'n' roll It's an angry steed, on a never ending course
With grace and speed, it's an unrelenting force
His head thrown back and defiantly proud
Under constant attack, it's blasting, fast and loud Now you can ride it high
And you can light the way
Lift up your hands in praise You can't stop rock 'n' roll
You can't stop rock 'n' roll
You can't stop rock 'n' roll Can't stop, can't you stop it
Can't stop, you can't stop it
Can't stop, can't you stop it
Can't stop, you can't stop it Can't stop, can't you stop it
Can't stop, you can't stop it
Can't stop, can't you stop it
Can't stop, you can't stop it
