Saviour Love

Avalon

Confiscated from the darkness
And placed the palaces of light
You pursued the very part of me
I didn't want to sacrificeYou're the muse my heart is after
You have won the passion of my soul
Now I find it's me that's chasing You
And I never want to let You goOh, Savior love
Lost without my Savior love
You'll always be the only One
Oh, my Savior loveI'm in love with Your mystery
And Your supernatural ways
Like when I overstep love's boundary
Only to fall into a bed of graceSavior love, I am spellbound
At the very mention of Your name
I was set free when You captured me
And I'll never ever be the sameHow I need you
Help me make it
Oh, my Savior love
Help me make it through
