Push Button Magic

Fu Manchu

I drove a duster to the edge of the world
Like nothing from nowhere, tank ridin' full
Its a deep sea sound passin' right by
Cause I was drivin' one more timeLets see which one I can get
Still the best one I seen yetI only see what I want to see
I only hear what I want to hear
A barracuda let down, super shift it high
Cause I was flashin' one more timeLets see which one I can get
Still the best one I seen yet
