Summer Rain

Whitesnake

Lately Ive been thinking
Even 'though Im miles away
I can feel your love around me
Youre with me every day
And all the road Ive traveled
And all that Ive been through
No matter where it takes me
Im never far from you
You warm me like the morning sun
With you my life has just begunLove comes over me
Falling like summer rain
Like summer rain
All your love for me
Feeling like summer rainI travelled each and every highway
With you in my heart
And all the gold and silver
Cant keep us apart
You warm me like the morning sun
With you my life has just begunLove comes over me
Falling like summer rain
Like summer rain
all your love for me
Feeling like summer rainYou warm me like the morning sun
Baby youre the only oneLove comes over me
Falling like summer rain
Like summer rain
All your love for me
Feeling like summer rain
