Take Me As I Am

Simon Webbe

I can say waiting on my troubles
I believe, I've gone stronger than before
I have dreams, so many had been answered so let them be
Am not asking anymore I still search for that satisfaction
That the battle is won, when I found my faith and the place I belongBut until that day I'll be walking on to another place
Just drift along, till I find somebody
Who'll be my guide, make me feel alive
Will take me as I am, and that's when I'll know I found my destination
Whoo-oo, who'll take me as I am and never let it go and be my inspiration
Oo girl!! be my inspirationIt's alright, 'cause looking till tomorrow in my style
I take things one day at a time, I don't realize I'm drivin' in my sorrows to get by
I take those worries in my stripe there'll be trails there'll be tribulations
But where ever I roll, I hope the path I take will lead me back homeBut until that day I'll be walking on to another place
Just drift along, till I find somebody
Who'll be my guide, make me feel alive
Will take me as I am, and that's when I'll know I found my destination
Whoo-oo, who'll take me as I am and never let it go and be my inspiration
Oo girl!! be my inspirationDonno what the future holds
I'm happy drivin' down this road
U never know what life brings no no no noMy prophesy will show her face somewhere along the way
As long as I will keep this faith I'll find my destinationBut until that day I'll be walking on to another place
Just drift along, till I find somebody
Who'll be my guide, make me feel alive
Will take me as I am, and that's when I'll know I found my destination
Whoo-oo, who'll take me as I am and never let it go and be my inspiration
Oo girl!! be my inspiration
