## Crowbar

I feel it  
It's nothing new  
Depression  
My life is through  
To end it  
I feel the need  
Suspend it  
My will I feed I realize that you're now gone  
I lie here awake 'til dawn  
Don't stop me  
Just let it end  
Goodbye now  
No love I'll send
