

Downers

USER

Whisper to my brain
And taste the milk
Plucked from your mothers blender
Ill wash you down with downersHere I am2xYoure an abdominal freak
Ill turn the heat right up
Ill get rid of you all
Ill wash you down with downersNo excuses
For what you have done
So take a bite size bit
And pour on the gasoline
I want more gasoline
So I can bid you farewellI swallowed all my odourves
Ill wash them down with downersFor every ageless god
My angels come
They prop me up
For every ageless song
My angels come
They prop me
Slowly
SweetlyDown
In your downers
Down
In your downers
So down
In your downers
