La Di Da

Barracuda

La di da da da
La di da da da
Over
La di da da da
La di da da da
Over
They say it's a cold world, yeah you got that right
I almost packed it all in on the spot last night
They want a killer instinct then I'm just that type
But if the fight's not mine, I won't fight that fight
Life without strugglin', yeah right
Make one mistake, won't make that twice
Out of sight, out of mind, find yourself out of time
Buy your own pants, get your hands out of mine
In advance, in a promise, you'll make it
There's work to be done, you must grind and shine
Every second is a blessin', yes it is precious
Suggest you get all instant message
The aggression when you're findin' a direction
And headin' non stop just to find that the road is blocked
You wanna pop, flip you and stun
But settle down and work it out, it's really all you've got
So I'll tell 'em
When I can't take it
When I can't take it no more
This is what I say
La di da da da
La di da da da
Over
When you can't take it
When you can't take it no more
This is what you say
La di da da da
La di da da da
Over
And yeah I'm frustrated, fuck this what's this, how much
Who what, where when, why man, how come?
So many questions unanswered
I don't understand, could you please explain, sir?

I'm in a phase, I believe I can change
In exchange for an explanation, estimation, hesitation
Is it as visible dealing with digital?
Figittin' through email
When the issue is pivotal critical condition
My head's in, I'm headin' in the wrong direction
Book me a session, let it off my chest
I'll invest in a cannon
Just so I can blow with my bro
As my right hand man
Fan dan ass kickin' with ash spittin'
I'm not different, just ask Jigga
He listened and witnessed the birth of a star
Emergin' and surgin' his way up to the top of the charts
Now sing along
When I can't take it
When I can't take it no more
This is what I say
La di da da da
La di da da da
Over
When you can't take it
When you can't take it no more
This is what you say
La di da da da
La di da da da
Over
When I'm tryin' to come up
They wanna bring me down
When I'm tryin' to come up
They wanna bring me down
When I'm tryin' to come up
They wanna bring me down
When I'm tryin' to come up
They wanna bring me down
When you tryin' to come up
They wanna bring you down
When you tryin' to come up
They wanna bring you down
When you tryin' to come up
They wanna bring you down
When you tryin' to come up
They wanna bring you down
All the kids, sing along
When I can't take it

I can't take it no more
This is what I say
La di da da da
La di da da da
Over
When you can't take it
When you can't take it no more
This is what you say
La di da da da
La di da da da
Over
La di da da da
La di da da da
Over
