If You Love Me Like You Love Me

Gilbert O'Sullivan

Who can tell when I'm not well
And have no place to go?
Who can see what I can see
Before I even know?Who can climb up any mountain
For no other reason than the view?If you love me like you love me
Love me like you love me
It's youWho can wait when I am late
And not go on alone?
Who can queue an hour or two
Without a single moan?Who can measure up to me
In more ways than it's necessary to?If you love me like you love me
Love me like you love me
It's youWho make my garden grow?
You who turns me on
It's you who gives me the will to live
When I ain't feeling in any wayI ain't feeling in any way strong
Strong, ohIf you love me like you love me
Love me like you love me
It's youWho can smile when I get riled
And make me do the same?
Who can sense when I am tense
And gently ease the pain?Who can roll me over
Knock me down and pick me up?
Well, here's a clueIf you love me like you love me
Love me like you love me
It's youIf you love me like you love me
Love me like you love me
Love me like you love me
Then it's youOoh, if you love me like you love me
Love me like you love me
If you love me like you love me
Then it's youOoh, if you love me like you love me
Love me like you love me
You love me like you love me
Then it's you
