

# Oxygen

## Fred V & Grafix

There is nothing now I'm holding but from you

I'm not afraid

I'm not afraid

No more Every breath I takes seem easy at before

I just want more

I just want more

Suddenly I feel alive

No more dreaming

No more dreaming

I'm alive

I can feel you calling me out

We need to be alone together, together[x2]

You're oxygen

I can breath now

I can breath now

I'm alive

You're all I need

I can breath now

I can breath now

I'm alive\*music\*[x2]

You're oxygen

I can breath now

I can breath now

I'm alive

You're all I need

I can breath now

I can breath now

I'm alive\*music\*I can breath now

Together...

Suddenly I feel alive You're oxygen

I can breath now

I'm alive

You're all I need

I can breath now

I'm alive
