

# All To Myself

## Professor Green

I don't patronize, I realize  
I'm losing and this is my real life  
I'm half asleep and I'm wide awake  
This habit is always so hard to break  
I don't wanna be the bad guy  
Been blaming myself and I think you know why  
I'm killing time and times killing you  
Every way that I do  
Did you say please just follow me?  
I thought you wanted me 'cause I want you all to myself  
I can try and suck it up, I just can't suck it up  
Make me feel like someone else  
Please just follow me  
I thought you wanted me 'cause I want you all to myself  
I can try and suck it up, I just can't suck it up  
Make me feel like someone else  
I'm under the gun, you're like the only one  
I just can't decide what I'm running from  
This isn't what I wanted but  
I can't keep my filthy fucking mouth shut  
It's not enough, it's never enough  
And I wish I could breathe without getting it stuck  
Can't focus it but I try it over and over again  
Did you say please just follow me?  
I thought you wanted me 'cause I want you all to myself  
I can try and suck it up, I just can't suck it up  
Make me feel like someone else  
Please just follow me  
I thought you wanted me 'cause I want you all to myself  
I can try and suck it up, I just can't suck it up  
Make me feel like someone else  
Please just follow me  
I thought you wanted me 'cause I want you all to myself  
I can try and suck it up, I just can't suck it up  
Make me feel like  
Did you say please just follow me?  
I thought you wanted me 'cause I can't stay with someone else  
I try and suck it up, I just keep fucking up  
I want you all to myself

Did you say please just follow me?  
I thought you wanted me 'cause I want you all to myself  
I can try and suck it up, I just can't suck it up  
Make me feel like someone else
