

Looking for the Summer

[Chris Rea](#)

Look deep into the April face

A change is clearly taking place Looking for the summer The eyes take on a certain gaze

And leave behind the springtime days Go looking for the summer This ain't no game of kiss and tell

The implications how you knew so well Go looking for the summer The time has come and they must go

To play the passion out that haunts you so Looking for the summer Remember love, how it was the same

We scratched and hurt each other's growing pains We were looking for the summer And still I stand this very day

With a burning wish to fly away I'm still looking

Looking for the summer Looking for the summer
