

Take Me Away

Ween

Well take me away to some other land
Yeah, I gotta get away from that girl before I go crazy
She took my love away and she took it to another man
Now I gotta get away from that girl before I go crazyTake me away to some other land
Yeah, I gotta get away from that girl before I go crazy
She took my love away she took it to another man
Now I gotta get away from that girl before I go crazyTake me away to some other land
Yeah, I gotta get away from that girl before I go crazy
Well she took my love away she took it to another man
And now I gotta get away from that girl before I go crazyTake me, well take me awayGotta get away, crazy
She took my love away
Now I gotta get awayTake me away to some other land
I gotta get away from that girl before she drives me crazy
She took my love away she took it to another man
I gotta get away from that girl before she drives me crazy
