

# Control

## Lights Fade Low

I thought I knew you  
Better than all the rest  
The lot of them were deep as raindrops,  
On my windshield,  
    Cold as steel,  
    In dead of winter  
They thought I was,  
    Better than this,  
But in time I learned my weakness  
    Bound like wire,  
    Coiled too tight,  
    Hot like embers,  
    Burn too bright

I can't control you,  
And you can't control me,  
And we're not the ones  
    That we want  
    Us to be

You push too hard  
Everywhere you are,  
They feel your presence  
    Strong like waves,  
    Against the sea wall  
    Loud as thunder,  
    Over me  
    You don't let on  
I never really know,  
Just where I stand  
    Thick like fog,  
    Rolled off the bay  
    Black like night,  
    At the new moon

I can't control you,  
And you can't control me, (me, me)  
And we're not the ones (control)  
    That we want

Us to be (feels so right)

(I know you want, I know you want) I can't own you,  
(Want me, want me) And you can't own me,  
(Need me, need me, I know you can't) And we're not the ones  
That we want (feels so right)  
Us to be (feels so right, together are we)

(I love you)

(Over me,)  
(You're meant for me,)  
(I can't breathe,)

(Feels so right)

(Just the burn,)  
(Destroy me,)

(Feels so right, feels so right)

I can't fix you, (want me)  
(I know you need me) And you can't fix me, (need me, need me)  
(I know you can't, I know you can't) And we're not the ones  
That we want (feels so right, feels so right)  
Us to be (feels so right, together are we)

(Feels so right)

(I know you want, I know you want, I know you want)  
(Want me, want me)

(I know you can't)

(I know you need, I know you need, I know you need)

(I know you can't)

(Need me, need me)

(I know you can't fix me)  
(I know you can't fix me)  
(But we feel, so right)

(Feels so right, feels so right, feels so right)  
(Together are we we)

(I know you want, I know you want, I know you want)  
(Want me, want me)

Then so on and so forth I gave up here lmao
