

# Talk Like That

## The Presets

My, how you've grown  
I think I'll call you on the telephone  
And tell you all the things that I've been missing  
    Turn out the lights  
Where we're going we don't need 'em tonight  
We're at your daddy's home but he's not listening  
    You make me crazy when you  
    Talk like that  
    I might go crazy when you  
    Talk like that  
    You know I love it when you  
    Talk like that  
    And girl I'm crazy when you  
    Talk like that  
    You make me crazy when you  
    Our time has come  
    Start of the race and we're ready to run  
    We're on a roll tonight and you won't fight it  
    Don't like to see

Sitting [Incomprehensible]  
They ought to try sometime they might just like it  
    Talk like that  
    I might go crazy when you  
    Talk like that  
    A little creepy when you  
    Talk like that  
    Girl I love it when you  
    Talk like that  
    You make me crazy when you  
    You make me crazy when you  
    Talk like that  
    I might go crazy when you  
    Talk like that  
    A little scary when you  
    Talk like that  
    But kid I love it when you  
    Talk like that  
    You make me crazy when you
