

All the Right Friends

[R.E.M.](#)

I know you say maybe some day
I need never be alone
I know I say it's the right way
But you'll never be the one I've been walking alone now
For a long long, long time
I don't wanna hang out now
With the friends that just stand mine How did you party?
You've been looking but your search will never end
You've been hangin' with the wrong crowd
You've got all the right friends I've been walking alone now
For a long long, long time
I don't wanna hang out now
With the friends that just stand mine and said I don't wanna be with you anymore
I just don't want you anymore
I don't wanna be with you anymore
I just don't want you anymore I don't wanna be with you anymore
I just don't want you anymore
I don't wanna be with you anymore
I just don't want you anymore
