

# Blues From A Gun

## Sugar Ray

I want to watch the world cry  
I couldn't open my eyes  
I almost spoke but can't speak  
Still being shelled all those lies  
Blues from a gun I'm not the only one  
I've been fooled they got me on the run  
I've tried hard everything's been done  
I've been fooled from blues from a gun  
I start to watch the world crumble  
I had to open my eyes  
I start to run but I stumble  
They stole the blue from the sky  
Blues from a gun I'm not the only one  
I've been fooled they got me on the run  
I've tried hard everything's been done  
I've been fooled from blues from a gun  
Tears today in a way  
Fears today won't go away  
Blues from a gun I'm not the only one  
I've been fooled they got me on the run  
I've tried hard everything's been done  
I've been fooled from blues from a gun  
Whenever I turn around  
I'm lost and I can't be found  
Whenever I turn around  
I'm lost and I can't be found, look at it fall  
All these graces flying in the air now  
Look at it fall, look at it fall  
All these graces flying in the air now  
Look at it fall, look at it fall, look at it fall
