

Ghost Town

First Aid Kit

All of these ghost towns i keep travling through
All of these traffic signs and lonsem bars blind the siding view and
I swear i can be better
I could be more to you
But there are things that line my path
That i just have to do

If youve got visions of the past let them follow you down
Theyll come back to you someday
And i found myself attached to this rail road track
But ill come back to you someday
To you
To you
To you, someday

And i remember how you told me
All that you wanted to do
I dream of paris in the morning
Or a new york window view
And i can see it, now youre married and your wife is with a child
And youre alive in the garden
And im lost somewhere in your mind

If youve got visions of the past let them follow you down
For theyll come back to you someday
And i found myself attached to this railroad track
But ill come back to you someday
To you
To you
To you, someday

Maybe i should just turn around
And walk away hmmmhmm
For no matter how much i really do, want to stay
You know i cant
No, its too late

Ive found myself to this railroad track
But ill come back to you someday
To you

To you
To you, someday
