

You're So Hollywood

[Elise Estrada](#)

You go to Paris as jems
I get that guy over then
and Leonardo walks outta ?
just as you were walking in
You got a V.I.P.
to the Black Eyed Peas
cause your new best friend cousins' dentist
did Fergie's teeth
Life in the fast lane
faking, they're trying to fit in
and there's no shame in ?? or Asian
It's a tough pill to swallow
when you swim with the shallow
you're just another pretty face in the city of sin

You're so Hollywood
haunted by my side
the lights, the lights
You're so Hollywood
don't you care to hide
You're afraid of heights, of heights
You're living the dream
you're painting the town
but what goes up must come down
You're so Hollywood
don't you care to hide
You're afraid of heights, of heights
It's ? top
and those sexy prada shoes
that everything you got so you got nothing left to lose
