## Annabel

To stem the current is no vain attempt  
the Knowledge preserved for us alone  
    in this world of mud and rust  
decipher what is coded by our handsDefiled our names  
    soiled glory of gods  
    dismal new faith  
spawn of deliverenceOh Wisdom formless and odious  
    the sexless parent of disbelief  
    restricting rules they can make  
means nothing to Your BeingDefiled our names  
    soiled glory of gods  
    dismal new faith  
spawn of deliverenceRestore what was broken  
    no single word is missed  
    with fiery tongues speak to us  
to souls gashed, souls hardenedOh Wisdom formless and odious  
    the sexless parent of disbelief  
    restricting rules they can make  
means nothing to Your BeingDefiled our names  
    soiled glory of gods  
    dismal new faith  
spawn of deliverenceThis conceit waste  
    regain we must  
    on Hermes' touch
