

# Dead Moon

## Brick + Mortar

If you really wanna kill me  
you need to think bigger  
If you really wanna take me down  
you need to try harder  
Cause I pray to the dark of the moon  
It's makin' me shiver  
If you really wanna take me down  
you need to think bigger

It's a dead moon  
I'm the Grim Reaper  
Can you feel me?  
I can feel your fever  
Starin' at the moon  
starin' at the moon  
won't stop starin' at the moon  
I'm a dead one  
you're a true believer  
Can you hear me?  
I can feel your fever  
Starin' at the moon  
starin' at the moon  
won't stop starin' at the moon

Death is my friend and life is my window  
Never lookin' up cause I don't wanna face the issue  
I pretend that it's not the end  
I'm never lookin' up cause I don't wanna face it  
The roof caved in and the drugs wore out and then God came down and kissed my mouth he said it's all my  
fault and begin to shout  
save me  
save me  
save me!

It's a dead moon  
I'm the Grim Reaper  
Can you feel me?  
I can feel your fever  
Starin' at the moon

starin' at the moon  
won't stop starin' at the moon  
I'm a dead one  
you're a true believer  
Can you feel me?  
I can feel your fever  
Starin' at the moon  
starin' at the moon  
won't stop starin' at the moon

If you really wanna take me down  
Pray to the dark of the moon  
It's makin' me shiver  
If you really wanna take me down  
Try harder  
cause I pray to the dark of the moon

The roof caved in and the drugs wore out and then God came down and kissed my mouth he said it's all my  
fault and begin to shout  
save me  
save me  
save me!

He's a dead moon  
I'm the Grim Reaper  
Can you feel me?  
I can feel your fever  
Starin' at the moon  
starin' at the moon  
won't stop starin' at the moon  
I'm a dead one  
you're a true believer  
You're an alive one  
I can feel your fever  
Starin' at the moon  
starin' at the moon  
won't stop starin' at the moon
