

# What Kinda Girl?

Massari

[Verse 1]Cause I'm a thug living the fast life, looking for love

(It seems to pass by)

Me and my love, the good not the bad kind, living it up

(Been through the sad time)

Whatever she does as long as she knows that I've had enough

(My life could show that)

Maybe I'm tough, I'll rub your shoulder, maybe it's us

(Until we grow up)

We'll be in love, I'll be your soldier, someone to trust

(My trust in your love)

It could be lust, maybe just one night, cause I'm a thug

(Aiming ma, go right)

This ain't a bluff, baby this love is right

The way has been rough, all that we've done is right

[Bridge]That love is all I need

What kind of girls got love for me

Hands up so I can see

What kind of girls got love for me

[Chorus]What kinda girl gets you excited

The kind of girl that would do it harder

What kind of girl have you decided

I wanna girl who'd be proud I got her

Is that the only girl that gets you excited

I wanna girl that would keep me zoning

Is it because of her thighs or how she rides it

I wanna girl that could freak till morning

[Verse 2]Braking it up after a dumb fight, make up with hugs

(Back to my love life)

It ain't the same, back then we loved that, playing them games

(Cause we was rug rats)

I'm thinking you changed, that's when I saw that you ain't the same

(Back then you called back)

Running away, what do you call that, coming to say

(Pass me some do stacks)

Running astray, tell you spend all that, come to my place

(Use me to fall back)

Look at your face, drugged out and buzzed out, out of my way

(Must love I'm thugged out)

Give me the space, cause I'm getting bugged out  
Out of my way, it's too late for hugs now  
[Bridge]That love is all I need  
What kind of girls got love for me  
Hands up so I can see  
What kind of girls got love for me  
[Chorus]What kinda girl gets you excited  
The kind of girl that would do it harder  
What kind of girl have you decided  
I wanna girl who'd be proud I got her  
Is that the only girl that gets you excited  
I wanna girl that would keep me zoning  
Is it because of her thighs or how she rides it  
I wanna girl that could freak till morning  
[Verse 3]Cause I'm a thug I had to leave her, the way has been rough  
(I can't believe her)  
I'm breaking up, don't want a cheater, sneak in the dark  
(Someone to please her)  
Knew you can change, cause it's gone so far  
Pick up your things, I told you it's over  
[Chorus] x 2  
What kinda girl gets you excited  
The kind of girl that would do it harder  
What kind of girl have you decided  
I wanna girl who'd be proud I got her  
Is that the only girl that gets you excited  
I wanna girl that would keep me zoning  
Is it because of her thighs or how she rides it  
I wanna girl that could freak till morning
