

Muezli

Slo Burn

Blood blood blood
Some give away you'll have to steal it from me so I
Glove glove glove
I put 'em on & baby don't you run from me
Shove shove shove
You take your time you have to wanna come and see
Load load load
The ride is up & someone won't you pick me up
Blood blood blood
Ah you rake my line & baby won't you tell me your lies
Shove shove shove
Ah and every while & time won't you stick to me
This is all that you wanted & this is all until it's true
Your flak is mine upon abduction & this is all I'm telling you
Blood blood blood
Your run from me it make me want to run away
Run run run
you got no place to go & then you're on your knees
blood blood blood
You pack the lead & cover your head
blood blood blood & all & all & all'Cause this is that you wanted & this is all until it's true
There's better ways to induce production & this is all I'm telling you
