I Know Where I Stand

Johnny Gill

Seen the world
It's crumbling all around me
A place to go
Where I felt safe
In search of help
I fell down on my knees
I pray to lord
Please keep my way

Doors open I've never know
When I ask faith
He'll show me which way to go

When the road gets rough
I've got to stand
Or else I'll fall
In God's creation
I know where I stand

Temptation sings
Its songs are loud and clear
But I won't let my feet stray from this path
Not even for all my heart
I know, I know, I know my mission
Is to walk as light as I can
To keep you looking up
When I'm feeling down
Keep my feet on the ground
Take it step by step and

He'll show me which way to go
My age combines wisdom
Nor sliver of gold

When the road gets rough
I've got to stand
Or else I'll fall
In God's creation
I know where I stand

He'll show me which way to go
My age combines wisdom
Nor sliver of gold

When the road gets rough
I've got to stand
Or else I'll fall
In God's creation
I know where my salvation lies
I know, I know, I know
In God's creation
I know, I know, I know, I know, I know
There are some things
That I may not know
Sometimes the hills are hard
Are hard to climb
But I know, I know, I know
Someone who has the plan

When the road gets rough
I've got to stand
Or else I'll fall
In God's creation
I know where I stand
