

# Ending World (Electric Hellfire Club Mix)

## Information Society

And I was born in a world that's ending  
Tell me you're gonna fall down any day now  
Eternal change outside me howling  
And inside everything stays the same  
And it's the end of my world once again  
And things are never gonna change when I die  
As the circle comes to an end in my room  
And everything stays the same outside
