

# It's Just the Beginning

Melissa Allen

I'm not the best at what I do  
But what I'm good at is getting through  
To someone's heart  
Give them a new start  
I know it's hard  
But just play the part

Pre Chorus:  
I'll help you see  
That sometimes all you need to do is breathe  
Just breathe

Chorus:  
Cause I believe in you  
In everything you do  
It's gonna be oh  
It's gonna be okay  
Open the door and walk to a new day  
Cause after all it's just the beginning

Don't let others get you down  
I know it's hard in such a small town  
But in time we can make up  
And help the others wake up  
To reveal the beauty that's within

Pre Chorus:  
I'll help you see  
That sometimes all you need to do is breathe  
Just breathe

Chorus:  
Cause I believe in you  
In everything you do  
It's gonna be oh  
It's gonna be okay  
Open the door and walk to a new day  
Cause after all it's just the beginning

Bridge:

So all you restless hearts  
Here's a brand new start, yeah  
Go ahead and take it  
It's yours, It's yours

Chorus:  
I believe in you  
In everything you do  
It's gonna be oh  
It's gonna be okay  
Open the door and walk to a new day  
Cause after all it's just the beginning

I believe, I believe in you  
It's just the beginning  
It's just the beginning  
I believe in you  
Cause after all it's just the beginning
