

# Can You Feel It

Kem

VERSE 1:

For every woman, that needs a man  
There's a man, that needs you too, aw baby  
Maybe, I'm the man for you  
You hear my heart, you fill my life, you make my day  
I'm more in every way, my baby  
'Cause you open me and you feel it

CHORUS:

I care for you, I wanna hear from you,  
All bets are on, me lovin' you, Girl I'll be there for you, Can You Feel It?  
I miss you boo, I'm reminiscing too, our love is strong  
Girl all I do, is wanna be with you, Can You Feel It?

VERSE 2:

The days go by, the nights are long  
But I refuse to let you go, maybe I'm crazy (you get a little crazy sometimes, I know)  
Or maybe no one loves you better  
With all my love, all my time, with all my heart, my soul, my mind I will be here  
I will be here, I'm waiting for you, waiting for you baby, faithfully  
Can You Feel It?

CHORUS #2:

I care for you, I wanna hear from you,  
All bets are on, me lovin' you, Girl I'll be there for you, Can You Feel It?  
I miss you boo, I'm reminiscing too, our love is strong  
Girl all I do, is wanna be with you, Can You Feel It?

What's best for you, is better for me too  
Girl I was wrong, I'm in love with you, I wanna stay with you, Can You Feel It?  
You got me hypnotized, my baby's on my mind, girl please come home  
I'll do whatever you, you wanna do

BREAK/BRIDGE:

I'll never leave you and I'll never lie,  
I'll be faithful all my life,  
Can you feel it girl, baby, alright  
Give you all my love and all my time  
I'll give you all my world, can you feel it girl  
Baby, Can You Feel It?

CHORUS #2:

>Repeat 2 times

BREAK/BRIDGE:

All my love, all my life, all my time, baby  
Can you feel it girl, baby  
Can you feel it girl, baby  
Do you feel it like I feel it girl  
Can you feel it baby  
Hey, girl, baby, baby, baby you  
Can you feel baby?  
SPOKEN in Sultry voice (to fade out):  
Can you feel it, but do you feel it like I feel it;  
Well, I know it's like that sometimes, but I feel it baby, I feel you.
