

# Wait For Love (you Know You Will)

[Josh Ritter](#)

I wait for love  
I wait for love  
Wait for love, wait for love  
wait for love, wait for love I got someone on my mind  
And she don't make me wait the way you do  
But time oh she loves me all the time  
And she don't make me wait the way you do Wait for love, wait for love, wait for love  
Somedays babe we all have to wait for love  
Wait for love, wait for love  
Somedays babe we all have to wait for love I got someone on my mind  
And she holds me pretty much the way you do  
But time oh she holds me all the time  
And she don't make me wait the way you do Wait for love, wait for love  
Somedays babe we all have to wait for love  
Wait for love, wait for love  
Somedays babe we all have to wait for love
