Reggie Jax

Public Enemy

I never tried to pretend to have an accent that I never had
So why don't you stay away awhile, come hear the freestyle
The quicker the sticks with the guitar licks
Complete the beat for your feet, check out the drum kick
I'm here to live for the love of my people
Kickin' it all about rebuildin' so all the children avoid the self destruction
So long I'm gonna do y'all a favor 'cause I got the flavor, yeah
Get low not high, you can't deny, homeboys and girls you'll testify
The P E F U N and the K will stay and make your body sway
'Cause we got the funky beat on the street, on your feet
Can you feel the heat in your mind all the time?
You don't have to find the effect of the rhythm
An' the funky rhyme on your body, on your gear
So have no fear in your hair, everywhere if you dare take this never
Miss that funky list of super rockin' cuts that you can't resist
On the move, make ya groove, prove that we choose our cuts
Make you strut and shake your but
Bend your back get the knack of the funk attack
Yes, yes, y'all take that
