

# One Trick Pony

[deadmau5](#)

Pump the brakes, you're a red flag, red light  
Holdin' up for stop signs, I'll never be sloppy seconds  
Go ahead, take them back, your one, two, three minutes  
All you do is take, take, takin' off the little  
Got more goin' on I'd rather be eating glass  
Stick hot needles in my eyes, go ahead and tap that ass  
Draw them up, yeah like there's candy  
Girl, I ain't tryin' to connect or paint a picture  
I'm not in it, never will be  
You can't be me, get your freak on  
You can suck it, they've all seen it  
And you liked it, now who wants it?  
Cotton candy sugar high  
Break your bones when you come down  
You're a one trick, my trick pony who's next to hop on  
Ride, ride, ride, 'bout to bring a blood spill  
We've both been there  
What's the next stop? I won't sit still
