Frantic Disembowelment

Cannibal Corpse

Intestines exposed
By violent thrust
The innards removed
Dissecting the gutsTo rip through the skin
Tissue and muscle
Cartilage shredding
Draining blood vesselsFrenzied hacking
Morals lacking, eviscerate
Life is gone before my eyesFlesh matters the most
When splattered around
It's never morose
Absurdly profoundFresh insides come out
Excitedly done
My purpose in life
To kill just for funFrenzied hacking
Morals lacking, eviscerate
Life is gone before my eyesFrantic disembowelment
Deprived of vital content
Organ loss without consent
Spastic slicing an eventSharpened steel my covenant
Frantic disembowelment
Mutilating miscreant
Sickening accomplishmentSpreading gore is time worth spent
Perpetuate this mad intent
Eternally malevolent
Frantic disembowelmentKidneys exploded
The pancreas flew
Stomach deleted
The spleen I did chewThe carving is over
You lost and I won
Fulfilling my dream
I killed you for funFrenzied hacking
Morals lacking, eviscerate
Life is gone before my eyesFrantic disembowelment
