This Is Goodbye

Don Vedda

I'm back from the dead
I never needed you
I was just to young to see
But I watched and I learned
How these bridges can burn
Now a match
Just watch the flames now
Woah, oh, woah, oh, woah, oh

[Chorus]
This is goodbye
Your world is faded
To black and white
But I'm still here
I'm still here, tonight
This is goodbye

So where are you now?
Guess the dead never ring
Deep down, down on the ground
But I watched and I learned
How these bridges can burn
So step back
Just watch the flames now
And I'll be watching you burn
Woah, oh, woah, oh, woah, oh

[Chorus]
This is goodbye
Your world is faded
To black and white
But I'm still here
I'm still here, tonight
This is goodbye

So how does it feel
To defy the open spaces
And know that you'll never grow?
Let me know
How does it feel

To stand in your own afflictions
That you cast upon yourself?
Let me know
How does it feel
To defy the open spaces
And know that you'll never grow?
Let me know
How does it feel
To stand in your own afflictions
That you cast upon yourself?
Woah, oh, woah, oh, woah, oh

[Chorus]
This is goodbye
Your world is faded
To black and white
But I'm still here
I'm still here, tonight
This is goodbye
