A Vicious Kind

Yellowcard

Let me say this first
I was on your side
Before the war began
My gloves came off when the ring went
On, and on, and on
You can tune me out
You can turn me down
And try to cut me off
But you will not stop me singing
On, and on, and on
For a while you danced with us and
We were all alone
But the beat kept getting faster
And you lost control
I want you to know I'm
Not sorry at all
You can't buy forgiveness
Or blame me for the fall
All I ever wanted was
For us to beat the odds
I thought we were lucky ones
But all your luck is gone
You're a vicious kind
'Cause you've lived this life
Where you're allowed to win
Even when you're long, you still keep
On, and on, and on
So I think it's time

That we said goodbye
'Cause all your talent lies in the way
You're always moving
On, and on, and on
Oh, the beat kept getting faster
And you lost control
I want you to know I'm
Not sorry at all
You can't buy forgiveness
Or blame me for the fall

All I ever wanted was
For us to beat the odds
I thought we were lucky ones
But all your luck is gone
Oh, the beat kept getting faster
And you lost control
I want you to know I'm
Not sorry at all
You can't buy forgiveness
Or blame me for the fall
I want you to know I'm
Not sorry at all
You can't buy forgiveness
Or blame me for the fall
All I ever wanted was
For us to beat the odds
I thought we were lucky ones
But all your luck is gone
