

Gandhi Mate, Gandhi

Enter Shikari

now, i don't know about you, but i don't think the primary purpose of your life, of my life and the entirety of the human race's is just to blindly consume to support a failing economy and a faulty system. forever and ever until we run out of every resource and fall to the result to blowing each other up to ensure our own survival. i don't think we're supposed to sit by either while we continue to use a long outdated system that produces war, poverty, collusion, corruption, ruins our environment and threatens every aspect of our health and does nothing but divide and segregate us. i don't think how much military equipment we are selling to other countries, how many hydrocarbons we're burning, how much money is being printed and exchanged, is a good measure of how healthy our society is but i do think i can speak for everyone when i say, we're sick of this shit.time to mobilize time to open eyes.
