

# Second Skin

Heather Nova

The bullet's deep, I'm not dreaming,  
The blood I keep, while you're healing. Have you found your second skin, second wind ?  
Have you found your second skin, second wind ?  
Second skin. You're riding high, you won't be falling  
Don't look behind, I'm crawling. Have you found your second skin, second wind ?  
Have you found your second skin, second wind ? Oh you could have been born to swim,  
You could have been born to camouflage. Have you found your second skin, second wind ?  
Have you found your second skin, second wind ? does it pull ? a ring around your finger ?  
Does it hurt ? and will it linger on ? Have you found your second skin, second wind ?  
Have you found your second skin, second wind ? Have you have you have you have you x5
