

# Today Will Be a Good Day

Dianne Reeves

In the sweet light of the morning  
When the sun begins to rise  
I was awakened by some singing  
Of birds just flying by  
Now they was tellin' one another  
Today will be a good day  
I'm gonna make it that way I got my (?) to greet the day  
Thank the good lord for what he made  
Made my bed up  
Had myself some coffee  
Read the newspaper  
To see what they had to say  
Now whether it's good news  
Or it's just blues  
Today will be a good day  
I'm gonna make it that way Gonna be a good day  
Yes a good day  
A good day  
I'm gonna make it that way  
Gonna be a good day  
Lord, a good day  
Ooo good day  
I wouldn't have it any other way  
Now whether it's good news  
Or it's just blues  
Today will be a good day  
I've got to make it that way, yeah, yeah My God gave me a will  
And a voice  
I can make a difference  
With just one choice  
You see the kingdom of heaven  
Is at hand  
As long as I'm living  
I'm gonna take a stand  
I'm gonna do my best  
Hear me when I say  
'Cause oday will be a good day  
Gonna make it that way Gonna be a good day  
Yes a good day

A good day  
I'm gonna make it that way  
Gonna be a good day  
Lord a good day  
Ooo good day  
I wouldn't have it any other way  
Now whether it's good news  
Or it's just blues  
Today will be a good day  
I've got to make it that way, ooo, ooo  
Hey yeah, ooo, ooo, yeah I don't entertain boredom  
I don't entertain pain  
No route for depression  
Don't want to complain  
I've seen heaven  
Bring through hell  
There's so many stories I can tell  
Gonna live my best  
So I can honor my God  
I've picked a long life  
I know when I, I know that I Gonna spread the good news  
Gonna spread the good news  
Lord knows that I've paid my dues  
Yes today's gonna be a good day  
I wouldn't have it any way  
Today's gonna be  
Yes today's gonna be a good day  
I wouldn't have it any other way  
I wouldn't have it any other way  
I wouldn't have it any other way  
I wouldn't have it any other way  
I wouldn't have it any other way What'd you say?  
Whoo yeah!  
Unh yeah!  
Ooooo!  
Yeah, yeaaha
