Turn it off, wipe that look off your face. Turn it off, look what you done to this place. yer flawless sense of timing. you got so many lines, the faucet just keeps on running, water down in style - ya know the soft answer, from a thinkin' man, makes for the softest landing, turn away a whole flock of wrath, but when yer plumbing backs up, you're gonna drink it down, where ya gonna shack up? Who's yer landlord now? - etc...
