

# This Fire Burns Tonight

## Ufo

White lines on the highway  
Rolling out into the night  
Got no bag to slow us down  
We're traveling light, traveling light tonight  
Feel the wheels roll away  
How many miles have I been gone  
Listen, girl, you never knew  
This road goes on all night long  
This fire burns tonight  
The streets are alight  
Out on this town we are bursting  
This fire burns tonight  
The streets are alight  
And out on this town we are bursting  
Now me and my partners are moving  
We run on from town to town  
And this here road surface  
Is setting them up, rolling them down  
There's girls out in the neon  
Singing blues every night  
And you that they'll never love you  
They're traveling light, traveling light  
This fire burns tonight  
The streets are alight  
Out on this town we are bursting  
This fire burns tonight  
The streets are alight  
Out on this town we are bursting  
This fire burns tonight  
The streets are alight  
Out on this town we are bursting  
This fire burns tonight  
The streets are alight  
And out on this town we are bursting  
This fire burns tonight  
The streets are alight  
Out on this town we are bursting  
This fire burns tonight  
The streets are alight  
Out on this town we are bursting
