

# Falling Out

## The Sammies

You're coming in all fast, you're making me afraid  
I wanna do everything that you cannot abate  
I wanna screw you tonight, I wanna be your best friend  
I wanna be everything, that you won't understand  
Come back on over my house, come back on over my place  
I wanna do everything that we cannot erase  
My babydoll cause, it's alright, it's alright.

I never needed any woman so bad you know that  
I wanna wanna, I wanna wanna  
Steal your heart and make your soul go mad because  
I wanna wanna, I wanna wanna  
Introduce to you the unseen, oh baby  
My loving loving, my loving loving  
And your the best thing I've ever seen, you know that  
I wanna wanna, I wanna wanna.

You wanna find yourself, you wanna find your thing  
But your mind is so deaf it can't hear your soul sing  
I wanna leave you tonight, I wanna leave this place  
Gotta find a way to put a smail on my face  
The door is open, I think I'll leave here  
Gotta go on out, without catching a tear  
My babydoll cause, it's alright, it's alright.

I never needed any woman so bad you know that  
I wanna wanna I wanna wanna  
Steal your heart and make your soul go mad because  
I wanna wanna I wanna wanna  
Introduce to you the unseen oh baby  
My loving loving my loving loving  
And your the best thing Ive ever seen you know that  
I wanna wanna I wanna wanna.
